## Report of the Board of Health

Dover, Maine, Feb. 23, 1921.

The local Health Officer submits the following report:

### Number of communicable diseases reported, 29

|                 |    |
|-----------------|----|
| Typhoid fever,  | 1  |
| Mumps,          | 1  |
| Measles,        | 8  |
| Whooping cough, | 15 |
| Influenza,      | 2  |
| Diphtheria,     | 2  |

### Fumigation

This was done in a thorough manner in all necessary cases.

Sewers were completed on Court and Lawrence streets, the one on Mayo street not being completed, will be finished this year. The Board recommends that sewers be laid on Vaughan and Maple streets.

Nuisances have been reported frequently, and as far as possible have been removed.

The following extract from the Health laws of the State of Maine, Chapter 197, Sec. 48, is here given:

"Whenever any householder knows or has reason to believe that any person within his family or household has small pox, diphtheria, scarlet fever, cholera, typhus or typhoid fever, cerebro-spinal meningitis, measles, membranous croup, so called, whooping cough, or any other disease which is made notifiable by the rules and regulations of the State board of health, he shall within twenty-four hours, give notice thereof to the Health officer of the town in which he resides. Such notice to be given by letter or telephone, or it may be delivered in person."

A. A. Dinsmore, Health Officer.

## Report of Public Health Nurse

### To the Citizens of Dover:

I wish to submit the following report:

The total number of calls made in the district from Feb. 16, 1920, to Feb. 4, 1921, were 465, which includes tuberculosis visits, pre-natal visits, child welfare visits and visits made in the homes following up cases after the examination of the school physician.

|   |              |
|---|--------------|
| Number of calls made by nurse,  | 465 District |
|   | 61 Dover     |
| Number of tuberculosis cases including suspicions and ex-san. patients, | 83 District  |
|   | 10 Dover     |
| Number of cases discharged, negative,                                   | 6 District   |
|   | 1 Dover      |
| Number of cases discharged, sanatoria,                                  | 13 District  |
|   | 2 Dover      |
| Number of cases discharged, died,                                       | 7 District   |
|   | 2 Dover      |
| Number of cases discharged, moved away,                                 | 3 District   |
|   | 0 Dover      |
| Number of cases dischgd., other reasons,                                | 1 District   |
|   | 0 Dover      |
| Number of cases now under care,   | 32 District  |
|   | 5 Dover      |
| Number of cases to apply to sanatorium,                                 | 4 District   |
|   | 1 Dover      |
| Number of cases sent to Children's Hospital, Portland,                  | 4 District   |
|   | 0 Dover      |

Several visits have been made in all the schools giving health talks and it is always very encouraging to find how much the children are interested and how very anxious they are to follow out the Health rules.

Several cases have been operated on for tonsils and adenoids and there are a great many now who should have it done, and I do want to urge parents not to neglect these things in the child as their physical as well as mental health may be marred by bad adenoids and tonsils and decayed teeth.

Since November, Guilford has employed a full time nurse which leaves Dover, Foxcroft, Milo, and Brownville in the district.

Respectfully submitted,

Nina B. Fogarty,  
Public Health Nurse.

| Cards now in circulation (exclusive of<br>visitors' cards), | 3,166 |

In former years we have accessioned many bound periodicals, but our funds this year have not permitted the binding of so many. Indeed, the increase in the cost of books and periodicals has so far outstripped that of former years that we were obliged to forego purchasing much that was needed, despite the fact that we retrenched severely in the number of periodicals which we usually furnish in the reading room. The publishers of *The New England Magazine*, *The World Outlook*, *Everyland* and *The Red Cross Magazine* failed to continue publication, and we limited our subscriptions for the *St. Nicholas* & *The Youth's Companion* to one each, and cut out from our list *John Martin's Book*, *The Yale Review*, *The Living Age*, *Current Opinion*, *Collier's Weekly*, *Harvey's Magazine*, *The Survey*, *The New Republic*, adding only "*The Open Road*," a magazine for young men, and *The Manchester Guardian*.

The *American Issue*, *Our Dumb Animals*, *School Life*, *Mother and Child*, *The N. P. H. A. News*, *The Mexican Review*, *The New Near East*, *The Dearborn Independent*, and *The Independent Woman* are gifts to us this year. Yet, gifts and other subscriptions we still have 64 entries on our periodical list, which is a large number for a small library to furnish, but our public seems to demand even more than we do furnish.

### Work in Cooperation with the Schools

Since the circulation of the little branch libraries in the rural schools of the twin towns has been allowed to lapse by those in authority, certain teach-

ers employed in the outlying districts have done very good work by making use of the teachers' cards furnished by the library, by which at least twelve books at a time may be taken out and held as long as desired if renewed by telephone or card every three weeks. In this way, some schools have used 30 or more volumes a term, which the teachers claim have been a great aid to them in their work. The teacher is held responsible for any unnecessary damage done to the books while in her care, and thus far, all have been returned in good condition to the library.

Some of the pupils from the village schools come in the library often to hunt up references that will aid them in their work, and pupils of all ages seem to gravitate to the library as soon as they are liberated from school in the afternoon.

The teachers in the Academy lament the fact that so many of their pupils understand so little how to use the library to the best advantage in their work, and have tried as well as they could to instruct them in this particular. It has now been four years since the librarian has had classes from the 9th grades to instruct in this work.

The pupils studying debate have had a shelf reserved for them in the library, on which they can find all matter which the library has for their work, and we have borrowed both from the State Library and from the Boston Public Library for them, this winter. If some time early in the summer there could be a meeting of the teachers of the Academy and the executive committee of the library to decide what books we could purchase in the coming year that would furnish valuable aid to these students it would be most helpful.

### Use Made of the Favor House This Year

In the summer vacation, the congested condition of the shelving furnished in the main library, was such that something had to be done to relieve it. Through the courtesy of those having charge of the Favor house, the executive committee were allowed to occupy two rooms in that building with books that although necessary to retain, were seldom called for. Therefore, some 600 books, some of them very valuable, were taken from the shelves in the basement, to make room for books that had to be removed from the upper floors in the library, and stored by those in authority in two rooms in the Favor house.

## Report of Superintendent of Schools

### To the School Committee and Citizens of Dover:

I have the honor of presenting for your consideration my fourth annual report of the schools of Dover.

The work of the schools thus far this year has been going very smoothly. The attitude of the pupils towards their work is very encouraging. The discipline of our schools as a whole shows a marked improvement.

I speak of discipline, because, unless the teacher can have the right kind of discipline, she cannot teach successfully. A teacher to be successful in her work must not only know what discipline means but must know how to obtain it in her class room.

There are still chances for improvement in our schools. I will mention a few things that would help us to improve our work very much.

Parents—Be sure that you not only get introduced to the teacher of your children but be sure that you know her. You should make yourself familiar with the work that is being done in the schools. You should have a heart to heart talk with the teacher in regard to the strong and weak points of your children.

If the parents and teachers will work together more and more every year, then we shall get results in our school work that we never thought possible to get. Parents, please visit your school at least three or four times during the year.

The plan and aim this year is to have the pupils learn to concentrate their minds upon their work as to become independent thinkers and doers and not to be unnecessarily dependent on the teacher for help. We wish to train the pupil to do all he possibly can for himself. The teacher is a guide, an instructor and not one who does the work for her pupils.

Attendance—A pupil frequently absent loses a large amount of valuable participation in recitations, lags in interest, becomes poor in scholarship, and in most cases, gets discouraged and unable to keep up with his classes. Delinquent pupils necessarily retard the progress of the class when they return. The habitual delinquent is a dead weight that the remainder of the class is obliged to carry. Regular attendance should become a habit.

Tardiness—Every pupil should be ready for the school assembly at the beginning of each session. Tardiness in arriving at the school building after the scheduled time of opening has a detrimental influence not only on the particular grade affected, but upon the pupil himself, for promptness is one of the requirements of any activity, whether in school or later. Punctuality and regularity of attendance are essential if the school is to be operated with a minimum of waste.

The time is not far off when we shall have to carry out a system of physical education as planned by the State Educational department at Augusta. There is no question but that our boys and girls need to be trained in both body and mind. When the time comes let us rightly take up physical education for it is of no use to half do this kind of work.

• The teachers of the village school every school day prepare a hot lunch for the pupils who bring their dinners. The parents of these children are donating potatoes, beans, vegetables and salt pork from time to time and the men and women of the village are giving of their money to help support this grand work. The teachers are very much interested in this work and I know the parents of these children who stay at school during the noon hour are very grateful to the teachers for the hot lunch they prepare for them. Below is the menu for the week beginning February 21.

Monday, Feb. 21, baked potatoes and hot cocoa.  
 Tuesday, Feb. 22, corn chowder.  
 Wednesday, Feb. 23, pea soup.  
 Thursday, Feb. 24, hamburg loaf and baked potatoes.  
 Friday, Feb. 25, potatoes and cream.

### Teachers

Three of last year's teachers are with us this year namely, Mrs. Hortense Bigelow, Miss Rouie V. Everett and Miss Harriet T. Moody. The two new teachers we have secured are Miss Hazel Tracey, who is teaching the fourth and fifth grades, and Miss Grace G. Ingalls, who is doing departmental teaching in the sixth, seventh and eighth grades and who is principal of the Grammar school building.

We have a corps of teachers who are working hard to make good and consequently the pupils are getting the good results of their hard work.

We have secured the services of Miss Grace Clark to teach music. She comes to us very much interested in the subject of music and also thoroughly fitted for her work. She is doing splendid work. She has organized an orchestra among the pupils of Dover and Foxcroft.

### Rural Schools

For the beginning of school in September we had to hire six new teachers. All but one were teachers of experience.

Our rural school problem is what needs very careful attention at the present time. At East Dover something should be done in order to give the pupils more time for recitations. At the present time there are thirty-three pupils and eight grades in that school. Under such conditions it is impossible for any teacher to do justice either to herself or to her pupils.

The great need of our country is for a better school system in the rural community. This need applies to our town as well as to other towns. I would urge every citizen both in the village and in the rural part of our town to give this great need their earnest and thoughtful consideration and their firmest support.

### Manual Training

Although the work in this department is going along very well, nevertheless, I believe the time has come when we should make this department of greater service to the pupils both in our Common schools and in our Academy. To do this we ought to have more room than we now have. We also ought to have some wood working machinery for with this kind of machinery our pupils would be able to make very many more useful articles than they are now able to make.

## **Home Economics**

For this department we have bought two Singer sewing machines. We now have four sewing machines. One of these machines was bought with the money that was obtained from the moving picture benefit given last spring. The second machine was paid for with \$22.45 given by the Junior Red Cross and the balance was taken from the Home Economic fund as appropriated by the two towns. We are gradually improving this department in equipment and at the rate we are going we shall have a Home Economic department in a few years as well equipped as any town or towns of our size in the State. We have at the present time a teacher second to none in the State in this line of work.

## **Repairs**

All of the repair work that had been planned with the appropriation that was made at town meeting has been done with the exception of fixing the foundation at the South Dover school. Below you will find the name of each school house and the work done on each during the year.

### **Village School**

The walls and ceilings of five rooms were painted. Seats and desks in the eighth grade room scraped, shellacked and varnished.

### **Brockway School**

Wood shed painted two coats.

### **Bear Hill School**

Painted outside two coats and painted inside one coat.

Dover South Mills, Norton Hill, and East Dover schools each painted outside two coats.

### **West Dover**

One side of roof shingled; building outside painted two coats; Dado put on and varnished two coats; hard wood floor laid; galvanized iron jacket put around stove; slate blackboards put up; one new outside door and one new inside door; ceiling and all wood work inside except the dado painted two coats.

I am very grateful to the members of the School committee for the faithful service they have rendered and to the teachers who have worked so faithfully with me in the great work of teaching boys and girls not only to gain the knowledge they need for their life work but in endeavoring to make of them the best men and women of the future.

Respectfully submitted,

**William M. Bottomley,**  
Superintendent of Schools.
